March 2018 - Present (3 years 8 months)
Rome Area, Italy

Professor in the field of cyber threats inside the Security Manager training courses.

COVID-19 Cyber Threat Coalition
Steering Committee Member
March 2020 - April 2021 (1 year 2 months)

As our global community strains under the weight of the coronavirus pandemic, cybercriminals are taking advantage, attacking our most critical institutions and playing on our fears and anxieties in campaigns of extortion and fraud.

The COVID-19 Cyber Threat Coalition (CTC) is a global volunteer community focused on stopping these actors. We're united in our feeling that extraordinary times call for bridging traditional boundaries to operate with unity and purpose.

Masterandskills
Professor
March 2019 - March 2021 (2 years 1 month)
Rome Area, Italy

Executive Master in Cyber Security, Digital Forensics and Computer Crime, directed by Prefetto Domenico Vulpiani.

Professor in the fields of Cyber (threat) Intelligence and Advanced Persistent Threats.

<https://mastercybersecurity.it/>

European Electronic Crime Task Force Member

February 2010 - February 2017 (7 years 1 month)

The European Electronic Crime Task Force (EECTF) is an information sharing initiative, started in 2009 by an agreement between United States Secret Service, Italian Ministry of Internal Affairs and Poste Italiane, whose mission is to support the analysis and the development of best practices against cybercrime in European countries, through the creation of a strategic alliance between public and private sectors, including Law Enforcement, financial sector, academia, international institutions and ICT security vendors.

Backtrack Linux

5 years 3 months

European Project Leader and Main Developer

January 2009 - March 2013 (4 years 3 months)

BackTrack is a Linux-based penetration testing arsenal that aids security professionals in the ability to perform assessments in a purely native environment dedicated to hacking.

BackTrack is intended for all audiences from the most savvy security professionals to early newcomers to the information security field. BackTrack promotes a quick and easy way to find and update the largest database of security tool collection to-date.

BackTrack Linux, now known as Kali Linux, is also used by NATO, Governments, Military and institutions world wide.

Board of Directors Member, Technical Committee Member

January 2008 - November 2011 (3 years 11 months)

Co-Founder and Director of BackTrack italia branch.

BackTrack Italia is an association involved in Offensive Security Research, Evangelism, vulnerability observatory, Development and Documentation.

Offensive Security

Project Leader

February 2010 - January 2012 (2 years)

Design, development and management of the debian based architecture for BackTrack Linux.

Ubuntu

2 years 9 months

Cyber Security Engineer

December 2007 - July 2010 (2 years 8 months)

Member of Ubuntu Security Team and Whitehat Hackers team leader.

The Ubuntu White Hat Team is a subteam of the Ubuntu Security Team, and aims to identify security problems in the Ubuntu distribution and Ubuntu Services (such as Launchpad, REVU, Forums, website and other community systems) via auditing and careful pentesting. Members of this team adhere to policies of responsible disclosure, and coordinate any service pentesting with the administrators of the given service.

MOTU

November 2007 - July 2010 (2 years 9 months)

Masters of the Universe (MOTUs) are the brave souls who keep the Universe and Multiverse components of Ubuntu in shape. They are community members who spend their time adding, maintaining, and supporting as much as possible the software found in Universe.
